Anna's email to the Coordinators:

Please let the trainees know that their work is of great importance and that it is more important now than ever.

Let them know that the IRS is gone--- the Municipal version--- and all cases related to strawman accounts are being dismissed and exonerated. So if they had a case addressed to their STRAWMAN in progress, it's dead in the water. The fate of the Internal Revenue Service --- the Territorial variety --- is not clear yet, but I expect it to also go the way of the Dodo.

Restitution for all the illegal seizures made by the Municipal Government IRS will be coming soon, and the Federal Reserve rats are being mopped up as we speak. They won't get a chance to act upon their "Hundred Year Plan".

AT&T Yahoo Mail - Re: Coordinator Training Tonight

Does my heart good to report this, as I know how many, many people have suffered as a result of these corrupt and evil institutions.

I know a lot of people are having trouble putting the Federal Reserve into context - -- I just released an International Public Notice about the Federal Reserve Plan of 1910 --- which is basically playing out in front of our faces right now. Probably best for our Coordinators to read it and think about it, so they can hold hands and help people stay steady. Their plan has been preempted, but there will still be plenty of backwash.

What we have done is to push it over the edge and forced the Territorial Government to act --- or lose their own contracts; the UNITED STATES bankruptcy was the first domino; the British Territorial government will also have to be restructured back to what it is supposed to be and function as.

Caution everyone that Donald Trump --- though he is doing a lot of good things, is still not being very honest with us about some issues.

His blind support for Israel is most likely tied to economic projects and plans that are underway, but it is very disturbing that he is condoning the Gaza Genocide and trying to shuffle it off and distracting everyone with the idea that they are putting in nice hotels and providing homes for the victims elsewhere in the Arab world.

Let's get a clue --- the carpet bombing of Gaza isn't about nice hotels or resettlement. It's about oil and marine transport monopolies.

He isn't being transparent about "the United States of America, LLC" recently spooled up in London.

He isn't talking about the actual financial meltdown --- he's doing plenty about it, but not being upfront with the American people.
For example, he still hasn't admitted that the whole DOGE effort is part of settling the UNITED STATES bankruptcy.

Not talking about that and letting the public know what is going on has created a lot of political "hay" for Trump in some quarters, but it has also meant that many people have been unduly frightened --- thinking that this was some kind of coup or sudden horrible end of the world scenario.

Let our people in all the State Assemblies know that they are okay and that they will be better than okay in days to come.

Give everyone my love and apologies for not being there with them tonight.
