

Americans Are Restoring Our 1776 Government

A Comprehensive Guide: Why Correct Your Political Status to an American State National? Covering the History and Fraud of the Criminal U.S. Government and the Structure and Mission of the American Government Restoration

(Includes a topic reference library to articles by the Fiduciary of The Federation of States, Anna Maria Riezinger)

Preface

If you are reading this information, , it is likely that you have already corrected your political status to an American State National or you have received our International Public Notice.

If you are one of those who prefers to skip to the end of the story and comprehend our authority and standing to determine if what you are about to read is worth your time, you will want to read the last section, Section 13, and the Conclusion first and then return to this beginning for the details.

The culmination of the story is that you have a Sovereign birthright status and inheritance as an American State National that derives from being born on American soil. The Federation of States, d.b.a. The United States of America, unincorporated (1776), has reclaimed your birthright and recovered the financial assets Americans that were purloined by our corrupt and foreign U.S. territorial and Municipal governmental services providers. For over 160 years, they have operated in criminal breach of contracts, i.e. the Constitutions. We have vouchsafed your inheritance for you until you declare your birthright political status and come claim it.

Our mission and fiduciary duty are to inform you of these facts and provide you with a clear process to reclaim what has been stolen from you and from your prior generations.

Your local unincorporated American State Assembly is the rightful, republican form of government. The right to “peaceably” assemble is guaranteed by all three Federal Constitutions, and we wish to stress that what we are doing is both peaceful and lawful.

To claim your birthright standing, locate your State at this website: <https://states.americanstatenationals.org/state-coordinators/> and send an inquiry to your State Coordinator on the form provided there. You will normally be contacted promptly, but if you do not hear back in 2-3 days, feel free to use the automated international Land Recording and Publishing System (LRPS) here: <https://globalfamilygroup.com/lrps.html> provided by the Global Family Bank organization.

Doing this will prove to you that what we say here is in fact true and will help to calm any doubts.

To start from the beginning of this story to learn the historical backdrop explaining why you are owed this inheritance of rights and assets, let us begin with an Introduction.

Introduction

The Year 2020 marked the launch of the Great Reset led by World Economic Forum leader, Klaus Schwab. It was called the Fourth Industrial Revolution where the planned and much anticipated outcome of this one world government was that, I quote: “You’ll own nothing, and you’ll be happy.”

Now if the truth be told, this has been the condition of our lives for over a century and a half and was suffered by our great grandparents, our grandparents, our parents and now us.

Let’s examine our lives for a moment to see if owning nothing fills us with happiness.

- Are you happy filling out 1040’s every April 15th and paying your income tax “gifts” to the US government? Did you know that your “voluntary” contribution is labeled as a “gift” in the IRS Code and related Federal Titles– 31 USC 321(d)(1) and (d)(2)?
- Are you happy paying federal deductions out of your pay into the U.S. government’s “federal insurance program (FICA)” for your retirement from your purported federal employment when you are not a federal employee and not receiving a federal paycheck?
- Are you happy paying “your” property tax only to find out that your home and land have been seized upon as part of a foreign State Trust, and that you are listed as a tenant on your own land? Some deeds will have “tenant” written in the deed document. Check yours.

Are you happy knowing that you are paying a mortgage that is in fact owed by the same State Trust as a result of State of State spending you were unaware of and never authorized?

Are you happy to know that even after you pay off that mortgage “for” the State Trust, you will still not own your home or land and will instead be in receipt of a “Future Lease Purchase Agreement” as a Leasor?

- Are you happy paying your “registration and use” tax on the car you thought you owned but have in actuality merely registered your allowed use of it to the State-of-State franchise corporation who holds the Manufacturer Certificate of Origin?
- Are you happy casting your shareholder “vote” in the corporate elections for President of the United States, Incorporated?

Did you know that your votes for President of this foreign corporation don’t actually count? Only the votes of the Electoral College members count. Your vote is just a straw poll

telling the Electors which candidate is most popular.

When your candidate doesn't win because your votes don't really count or because the ballot count was rigged, as it often is, when our popular vote varies too widely from the Electoral College vote, how do you feel? Still happy?

Do you realize that political parties are lobbyist groups, just like the Tobacco Lobby, and they pre-select the slate of candidates you have to choose from? So, these elections are already "rigged" in all these different ways?

The U.S. Government is a set of foreign, private, for-profit corporations headquartered in the District of Columbia -- put simply, USA, Inc. which is a British Crown entity and US, INC. which is a Municipal Corporation. They sucker you into becoming a "Voter" and shareholder, so they can go bankrupt and foist all their debts onto you.

These corporations can run their elections as they please. Every fight fought for a right to vote gave you the "right" to vote in the US government subcontractor's corporate elections, not the Public Elections you expect and are owed.

How do you feel now? Jumping for joy?

- Are you happy having no "money to pay" for anything, making it impossible for you to "own" anything?

Those Federal Reserve Notes in your pocket are Promissory Notes, otherwise known as IOU's, issued by the private banks who are members of the Federal Reserve. But they aren't even proper IOUs and are no form of negotiable instrument at all, because they don't specify what species of money they are to be repaid in, and don't have a certain set date for repayment. And you are forced to trade your actual goods and services for these worthless pieces of paper. Still happy? Or are you beginning to suspect the truth? That you have been enslaved and defrauded by your own Federal Subcontractors, right here in America?

Want to write a letter to Klaus Schwab and tell him the news?

The Fourth Industrial Revolution, which amounts to Corporations stealing everything from everyone -- your identity, your assets, your rights, your inheritance, your political standing, your nationality, your votes --- began a long time ago. You just weren't told a thing about it, and these Corporations usurped your lawful government under color of law and conditions of deceit, so that you wouldn't know anything about it.

Are you dancing on air yet?

They even gagged and censored your newspapers and magazines and television programming and dumbed you down in your schools so that their "National Security" was protected by your trusting ignorance. Gives you a warm fuzzy feeling, doesn't it?

- Are you happy "licensing" your marital property to the State-of-State franchise corporation--- not only as collateral backing their debts, but as a Silent 3rd Party Partner with a controlling interest in your "Joint Venture"? This is how they get a public interest in the custody of your children and get to determine how your property is distributed in a divorce. Did you knowingly agree to this?

Ever wonder why you would need a license—which is permission to do something that is otherwise illegal --- to get married, practice law or medicine, drive your own car, or even cut hair?

- Are you happy with “registering” your newborn baby as chattel property belonging to the U.S. (British Territorial) Government Corporation, the USA, Inc., by signing that “routine” hospital paperwork?

Did you know that they listed you as an “Informant” – that is, someone who just found this criminally abandoned baby and turned it in to the Authorities? And then purportedly, you left the poor little tyke as a Ward of the State-of-State franchise corporation doing business as the State of Michigan, Inc. Or the State of New York, Inc. or the State of California, Inc.

And what does it mean when the State-of-State, like the State of Illinois, “securitizes” your baby’s living flesh as a chattel asset belonging to them? When they issue a bond on the projected value of his or her lifetime labor to cover their debts? Slave bonds, anyone?

That’s what all those Federal Reserve Notes are issued upon – the labor of indentured servants and slaves, securitized as assets belonging to living chattel.

That’s why we call Federal Reserve Notes “Blood Money” and that’s why they are totally illegal and immoral and why we should object to their use. Formally. In writing. And verbally every chance we get. But, if you remember George Herbert Walker Bush’s campaign theme song, “Don’t Worry, Be Happy” -- just like Klaus Schwab, are you happy yet?

Look on the long form birth certificate signature line where it says “Informant” where the mother signs.

This has been done to you, to your parents, and most likely your Grandparents and maybe even your Great-Grandparents, too. And it is all a crime called “unlawful conversion”. It’s a capital hanging crime under both the Geneva and Hague Conventions.

The Great Reset or Fourth Industrial Revolution is nothing more than a rebranding of the same old criminal fraud that has been perpetrated on our shores for over a century and a half.

By glamourizing the tenets of this extensive scheme, they dangle carrots in your face and apply sticks to your rump to get you to consent (once again) to be governed by these foreign, private, for-profit governmental service corporations and to volunteer as indentured servants and slaves for them. Don’t fall for it now or ever again!

The list of adhesion contracts goes on and on. Adhesion contracts are unconscionable, unilateral contracts made by you that bears only one signature – yours. One contract made under undisclosed terms binds you to the next one because of the original one you or your unwitting Mother, already made. Since the terms are undisclosed, you don't even know what that original contract was, but we know.

We found out. And we're not happy, but don't mind us. Make up your own mind whether it's better to live as slaves or as free men and women.

This entire process would violate your rights under the Bill of Rights to the Federal Constitutions, if you were "recognizable" as an American, but you see, you're not being recognized as an American. Thanks to your Mother signing an undisclosed contract in the hospital however many years ago, you have been misidentified as a British Territorial U.S. Citizen, as if you had been born in Puerto Rico. And Puerto Rico is a British Territorial United States Commonwealth. Brits don't have any protections under the Federal Constitutions, and as long as you are misidentified as one of them, neither do you.

However, to give her "consent" to this conversion of your natural political status, your Mother would have to have: (1) full disclosure of the contract and the pros and cons of accepting it; and (2) she could not be under any stress or duress to sign the contract; and as for you, for you to be bound by this contract that she signed, you would have to be made aware of its existence and able to object to it upon reaching the age of majority --- but instead, it was all kept secret for "National Security" reasons, right? So, your Mother signed a contract without realizing it was a contract, and you were a baby, so of course, for you the whole transaction was "unconscionable".

You never had any idea that any of this was going on behind your back at all, no reason to think that you are anyone or anything but a freeborn American owed every jot of every Federal and State-of-State Constitution.

If you were not made fully aware of the U.S. Citizenship contract and did not have the option to say "no thanks" without the threat of having your property taken from you or being punished in some way, then your consent as an adult to all this British Bunko was not given.

Indeed, on the contrary, fraud is being perpetrated against you and a crime is in progress.

This is a criminal racket that the democratic, U.S. "Government" service providers --- which are foreign, private corporations in the business of providing governmental services under contract -- have been perpetrating against Americans for over a century and a half.

So, brothers, sisters, we have some business to take care of. We are reclaiming our birthright political status as Americans – not British Territorial U.S. Citizens or Municipal citizens of the United States. We are restoring our lawful American Government. And nobody on Earth has any right to say "Boo!" to us about it. Certainly not our erstwhile Federal Employees.

But, at the same time, please realize --- nobody can do this for us. We are the only ones with the provenance and standing to restore our own lawful government, provide ourselves with our own lawful courts, and do what has to be done to regain control of this situation. It's up to us!

This Impersonation and Unlawful Conversion Scheme is a crime against us and against all of

humanity. Both peonage (indentured servitude) and slavery have been outlawed worldwide since 1926. It's literally illegal to securitize living flesh or to issue bonds on the value of someone's labor, so we have to delve into how this fact is being evaded.

And we have to TAKE STEPS to object, to expose, and to correct this situation, or it will continue until the criminals are forced to stop:

1. The very first step is to "fully inform" all these government officials and employees that they are doing something criminal when they take part in any portion of this scheme; we have to do this because most of them don't have a clue.
2. The second step is to clearly and succinctly object to these practices and legal presumptions.
3. The third step may require us to engage in additional activities --- research, legal actions, political lobbying, media and educational programs, and soul-searching.

We have to discover how this great country, the Land of the Free, has been reduced to this condition. We have to accept our part of the blame, because obviously, we weren't minding our own store, weren't educating ourselves or our children about our actual government, weren't taking appropriate action to discipline our public employees, conduct actual elections, and otherwise tend to our own affairs. We appeared to the rest of the world to be "absent, in interregnum, whereabouts unknown".

Please also understand that those who planned all this out to benefit themselves at the expense of their Employers are criminals acting in Breach of Trust and Service Contract; it is an act of Terrorism when people are subjected to foreign law and denied their constitutional guarantees and the protection of the Public Law.

Let's begin now with how American History goes and realize that only United States History has been taught in "our" Public Schools since 1974.

Begin with the fact that American History and United States History are two separate, though somewhat related subjects, and back in the day, there were two History Books every child in this country had to study. Typically, American History was studied in Seventh Grade along with Geography, United States History was studied in Eighth Grade, and Civics explaining how it all went together, was studied in Ninth Grade. By Tenth Grade we were ready to begin taking on World History and getting into advanced Foreign Language classes.

Compare that to your own experience in Public School. Were you ever made aware of the fact that American History is a different subject apart from United States History? Did you study Geography or World History at all?

Now, ask yourselves – how can you know who you are, if you don't know your own history and the history of the world in which you live? How can you be a responsible participant in government, if you are taught nothing about it?

Wake up, America. It's been a long nap – for over 160 years.

Bill of Rights

1. Freedom of religion, speech, press, assembly, and petition.
2. Right to bear arms
3. Protection against housing soldiers in civilian homes
4. Protection against unreasonable searches and seizures
5. Right to due process of law, protection from self-incrimination, double jeopardy
6. Rights of accused persons to a speedy and public trial
7. Right of trial by jury
8. Protection from excessive bail, cruel and unusual punishments
9. Rights granted in the Constitution shall not infringe on other rights
10. Powers reserved to the states or the people
11. Isn't part of the Bill per se but it guarantees our freedom from subjection to foreign law.
